# How TO Print

Thank you for your downloading this free Morning Routine chart! I hope it helps your mornings go smoothing and gives you children a great visual tool on what their responsibilities are in the morning.

## HOW TO PUT TOGETHER

Step 1: Print document 2 sided make sure to press flip on short side.

Step 2: I like to laminate my charts before cutting to make them last longer. (Here is a link to my [laminator](#))

Step 3: Cut on the dotted line to make each flap able to flip up.

Step 4: Add Velcro clear dots to secure the two sides together once a task is finished.

Step 5: Hang in your child's room at a height that they can reach and see.

Step 6: Walk your child through what each step is and how to do these steps independently (What are your expectations)

Step 7: On your way to a easier and less stressed morning.

THANK YOU!
